GUSSI® ITALIA

Home is where the anchor drops, and **Gussi Italia will take you there.**

Gussi Italia® marine steering wheels make boaters and sailors feel at home at the helm. Inspiring awe in all those who hold them, our wheels are made of only the finest woods, steel, aluminum, and leather, following the time-honored traditions of generations of Italian craftsmen. Each wheel is perfectly molded, balanced, and weighted, offering an exceptional boating experience.

Beautiful, durable, and available in over 60 gorgeous designs, Gussi Italia wheels are rugged enough for the rigors of boating, yet refined enough to sit among Italy's greatest masterpieces. They turn effortlessly within a captain's hands, providing exceptional control, quick response, and an impressive grip. We guarantee that once you get your hands on a Gussi Italia, you'll never want to let go.

Collina "S", Custom Color & Texture

Gussi Italia Manufacturing

Built On Tradition

Built On Being Original

Superior Performance
Every quick turn, every sharp corner, every "get-me-to-the-marina-before-the-storm" is no problem with Gussi Italia. Our wheels offer superior strength and enhanced stability, yet are lightweight enough for easy navigation and more controlled turning.

Italian Craftsmanship
Genuine mahogany, exotic hardwoods, stainless steel, fine leather – these are just a few of the quality materials that go into our wheels. Each is meticulously designed by hand by craftsmen who have a passion for their craft.

Finely Detailed
With a straight and even grain that's free from defects and knots, mahogany is tough yet durable. It's free from voids, and naturally resistant to rot and insects. To cover our wheels, we use a molded polyurethane foam and natural leather, and hand-stitch to ensure it won't unravel.

Extraordinary Handling
What makes Gussi Italia wheels handle better than others? We cast metals into shape by turning them into liquid and pouring them into molds. Next, our steelworkers remove anything that could cause defects, and then let them cool and solidify to become the perfectly molded, balanced, and weighted product we're known for.

MURANO
MULTIFUNCTION DISPLAY

by Gussi Italia

Making Waves

We didn't reinvent the wheel. We just put the Syntec spin on it. New technology creates new opportunities to do jobs that customers want done. The first of it's kind, the Murano Multifunction Display by Gussi Italia, is a touchscreen display that can be installed conveniently on the center cap of select wheels and in combination with our Power Wings Sport, you can effortlessly take control; Your hands never have to leave the wheel.

From Stem To Stern

The Murano Multifunction Display seamlessly connects with most any electronic feature on your boat. Customize the Murano Display to store your most-liked boat actions, assuring your favorite functions are just one touch away. Control operations like speed, cruise control, ballast control, audio, volume, and more. With connection to the rear camera, a full view of the back of the boat ensures safety for passengers and surfers alike and helps focus your attention where it belongs. The Murano can be fully customized with your brand & logo.

Available with a 12-Month Limited Liability Warranty.

SINEL HEATED STEERING WHEEL

The ultimate helm addition for cooler climates or simply a comfortable winter ride! Our heated wheel offers a variety of temperature settings on a striking black anodized aluminum wheel. Wrapped leather and accent stitching offers a fantastic look with extreme comfort.

SINEL FEATURES

Low Power Draw
Our wheel is designed to minimize the electrical load, drawing less than 4 amps.

Safety Cut-Off Switch
We've incorporated smart technology to cut-off the electrical current to prevent overheating.

Customize Heat Settings
Heat settings can be on/off, high-low, or up to as many heat settings as your customers demand. Our heaters go up to 130°F (54°C), the high-end of the optimal heat range.

Aluminum Spokes
This beautiful, light-weight, and non-corrosive metal keeps the wheels looking good as new.

Plug and Play Installation
We can customize the design taking into account your manufacturing process and specifications. Need a specific type of connector? No problem.

Custom Designs Available
Your brand deserves something that matches it – style, features, and functionality. We can customize the design to adjust to fit your brand and application.

POWER WINGS SPORT

Steering Wheel Control Unit

Always with an eye toward innovation, Gussi Italia® is proud to introduce Power Wings Sport, an elegantly crafted extension unit that nestles behind our steering wheels. Power Wings gives your customers complete control, putting boat lighting, media, trim tabs, anchor, horn, and other dashboard features right at their fingertips.

POWER WINGS FEATURES

- Molded from ABS plastic and stainless steel
- Up to 14 total customizable control locations
- Laser etched, back-lit console icons corresponding to user activity

Elegantly designed and easy to install, Power Wings let your customers take control — without taking their hands off the wheel.

CORALLUM

CORALLUM

A true work of art on its own! Corallum demands a second look upon first sight. The machined aluminum wheel seems comprised of three independent sections. Leather grip, your choice of finishes and many optional hub materials make this a helm's showpiece!
