TECHNICAL INFORMATION- 16 OUNCE PRODUCTS

Fiber:	100% BCF Olefin
Primary Backing:	Woven Polypropylene
Secondary Backing:	Grey TufLoc
Average Roll Length:	100 ft.
Average Shipping Weights:	6' = 145 lbs.+/- 8' = 176 lbs.+/-

Property	Data Range	Units
Denier	2328 – 2472	g/9000
FOY	0.50 – 0.80	%
Tenacity	2.0 – 3.0	gf/den
Elongation	25 – 45	%
Total Recovery	4 – 7	%
UV Stability (3000 hrs.)	≥ 3	gray scale rating

UNPRECEDENTED COLOR STABILITY

Long after carpet of conventional man made colored BCF fibers start fading, the yarn in AGGRESSOR continues to show its true colors because this yarn is the most highly ultraviolet stabilized colored BCF fiber yet developed.

CUSTOMS

Custom colors or widths may be available but would require minimums.

BACKING

Grey TufLoc is special backing designed for superior tuft lock and ravel reduction. It is light weight, drains easily and is flexible to mold to odd contours.

CARE AND MAINTENANCE

Carpets manufactured by Syntec are inherently stain resistant, however, periodic care such as vacuuming and washing with household detergents and warm water will help the carpet to retain the original appearance. All stains should be removed as soon as possible as this enhances the ability to remove the stain. Additional cleaning & care instructions available upon request.

TESTING AND CERTIFICATION

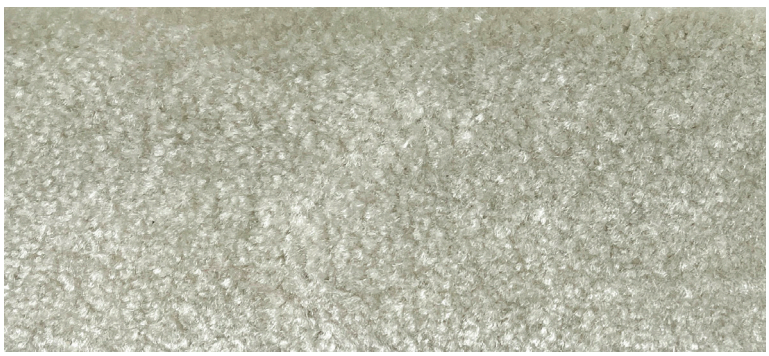

Federal Flammability Automotive Standard No. 302 - Passes

FLAMMABILITY

This indoor/outdoor carpet meets or exceeds non-flammability requirements of the U.S. Department of Commerce (DOC FF-1-70 Pill Test).
